

STUDENT SCHOOL SUPPLIES

Parents with a student attending Colorado Rocky Mountain School for the first time often wonder what students will need for their academic classes. Below is a list of required and suggested supplies. Students may also purchase items at the CRMS Bookstore or ride a CRMS bus to Glenwood Springs to purchase supplies.

- **Laptop - Required**

CRMS is a platform friendly school, meaning students can use a MacBook or any laptop running Windows. We do not recommend iPads. Chromebooks are acceptable, but not ideal if the student is going to pursue classes that need a Mac or PC computer to run specific programs. Those classes include Photography, Film Making, Videography, and all Computer Science classes. Eric Krimmer, our Director of Technology, is happy to answer any more technical questions on the subject: ekrimmer@crms.org

- **Graphing Calculator – FOR PRECALCULUS AND CALCULUS ONLY**

We follow the College Board/SAT policies – their list of acceptable calculators can be found [here](#).

Students should show up to the first day of class with the following items:

- Pencils
- Pens
- Highlighters
- Spiral bound notebook
- Teachers will provide students with a list of other required materials that can be purchased in the CRMS Bookstore as needed.
